

Bullying is a **BIG** Problem!

Bullying is a problem for everyone in a school.

Chances are that if you go to school, you are a bully yourself, a victim, or a witness to bullying. It could be that you're not even aware of it because bullying is not always easy to spot. Bullying can be of different types and actions. It could include teasing, threatening, hitting, stealing, and even gossiping.

According to the Bureau of Justice Statistics: 30% of students in grades 6 through 10 are involved in bullying, whether as bullies, as victims, or as both. That's one of every three kids!
